AREAS OF EXPERTISE

- R
- Python
- SQL
- ggplot2
- Tidyverse
- Scikit-learn
- pandas
- Grafana
- Shiny

DATA PROJECTS

Capstone | R, Python, SQL, ggplot2, Tidyverse, Scikit-learn, Grafana **May 2026 - current**

- Solo project focusing on a highly stigmatized niche fan community with strong ties to the LGBTQ+ community; analyzed the relationship between personal attitudes toward both communities
- Acquired data through conducting an independent survey on 200+ international respondents
- Supported the message with engaging graphics, including one physical, sculptural visualization

Data Visualization Final Project | R, ggplot2, Tidyverse, Shiny **January - May 2026**

- Group project aiming to visually challenge misconceptions about mental health in LGBTQ+ and transgender communities
- Presented interactive graphics balancing high information density with minimal visual noise

RELEVANT PROFESSIONAL EXPERIENCE

Python Tutor, Willamette University | Salem, OR **September 2023 – December 2025**

- Boosted student confidence and helped them overcome self-doubt through active listening and translating complex technical topics using easily accessible explanations
- Strengthened students' understanding of computer programming through leading weekly classroom sessions, providing detailed feedback on student work, and offering personalized 1:1 support to 10 students per semester

Mascot Team Coordinator, Willamette University | Salem, OR **August 2024 – June 2025**

- Promoted to team lead after four years as a member; personal enthusiasm for the work helped strengthen rapport on the team through engaging, fun, hands-on trainings and meetings
- Coordinated across eight team members and a staff supervisor, bringing Blitz the Bearcat to over fifty events throughout the 2024-25 academic year
- Communicated thoroughly with event organizers such as clubs, admissions, athletics, etc., satisfying their questions and requests as best as possible while balancing and explaining performers' needs
